

Le carte dei petali

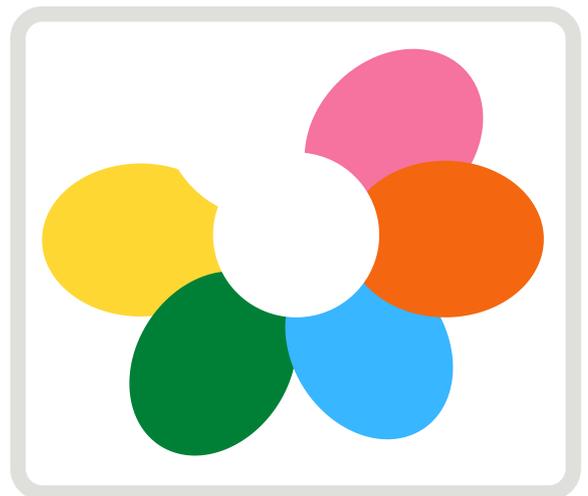

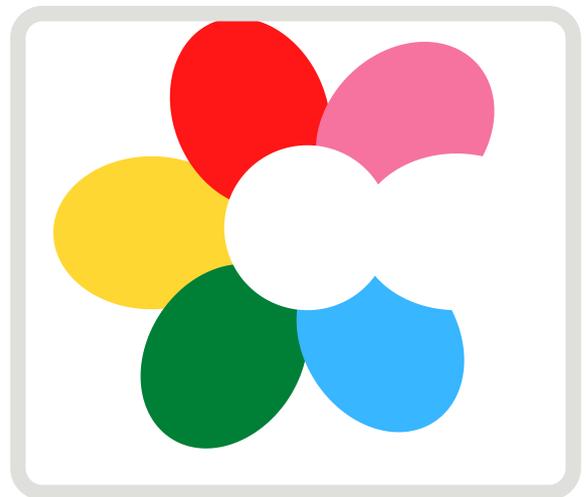

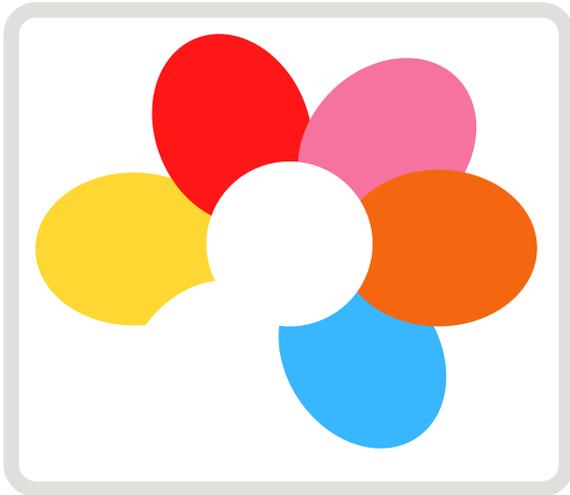

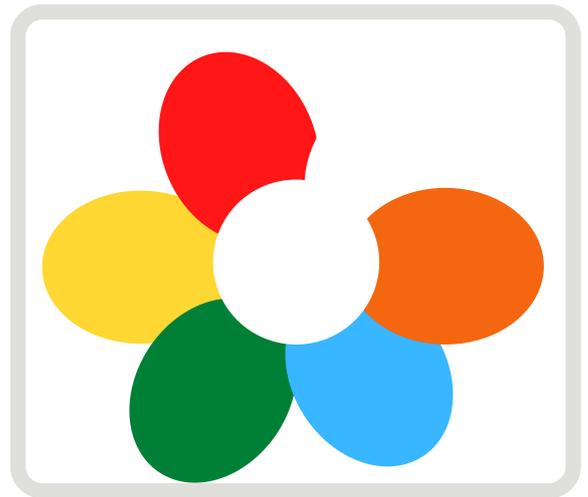

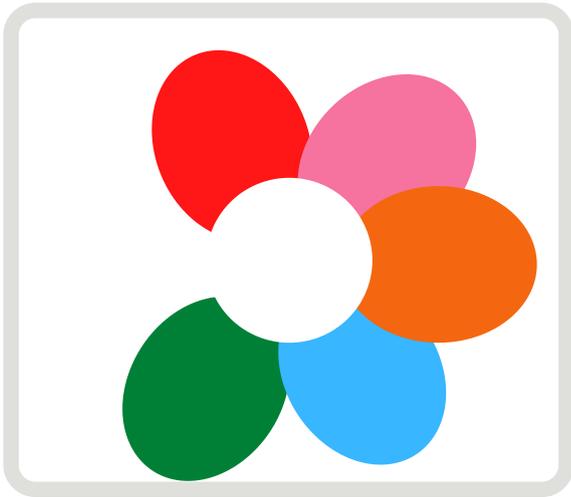

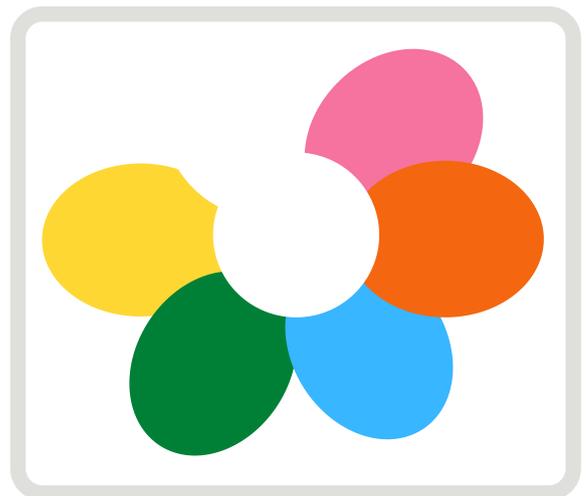

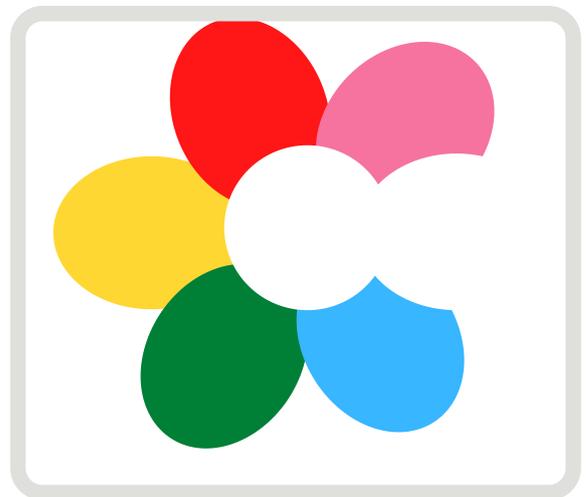

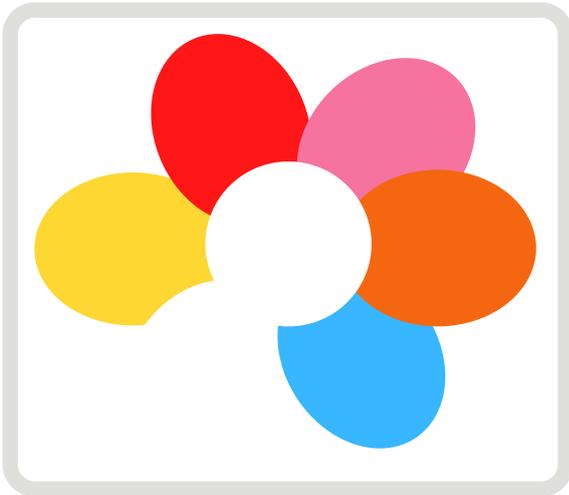

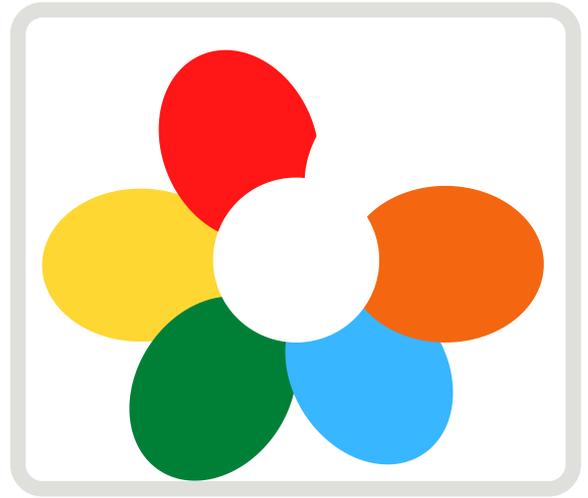

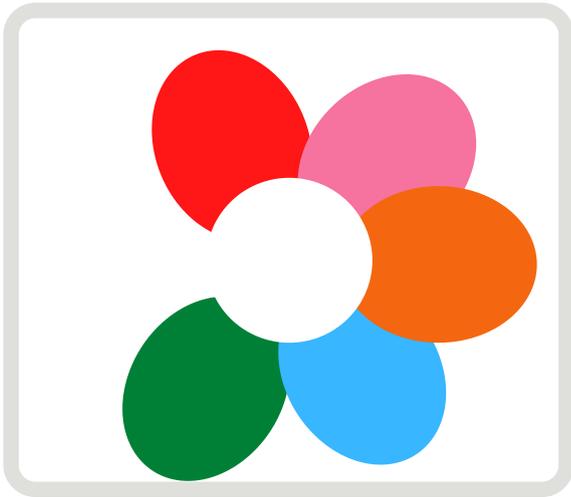

Istruzioni del gioco

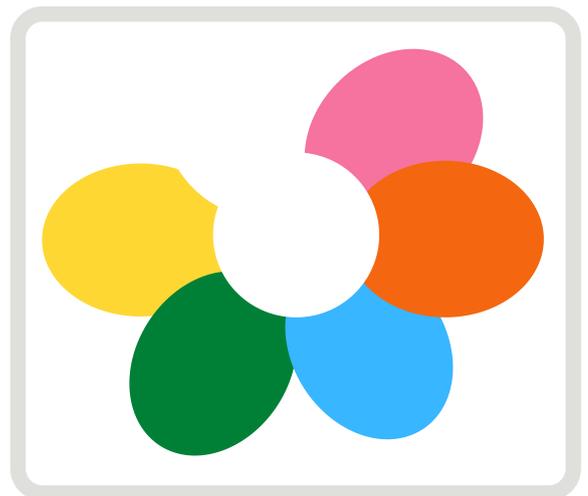

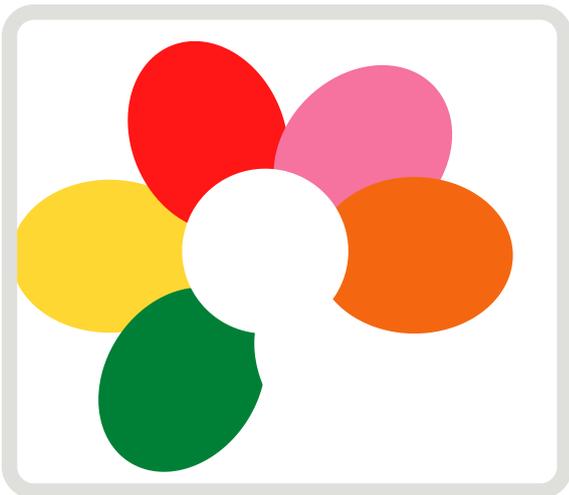

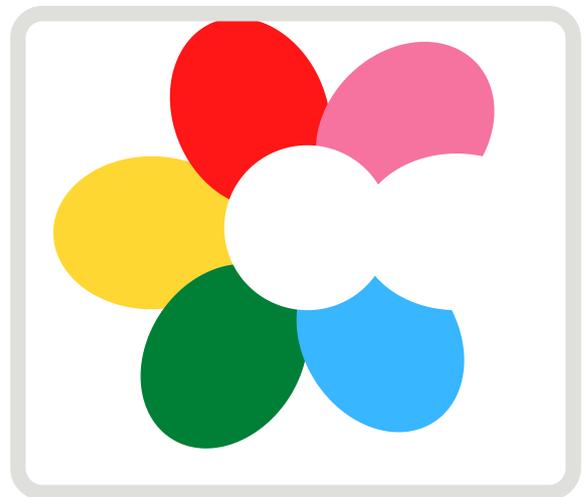

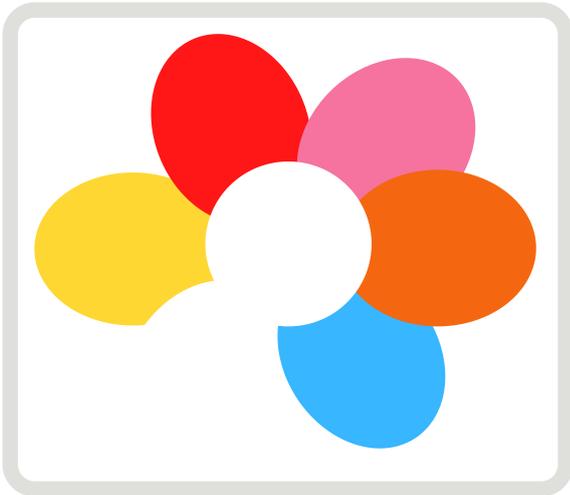

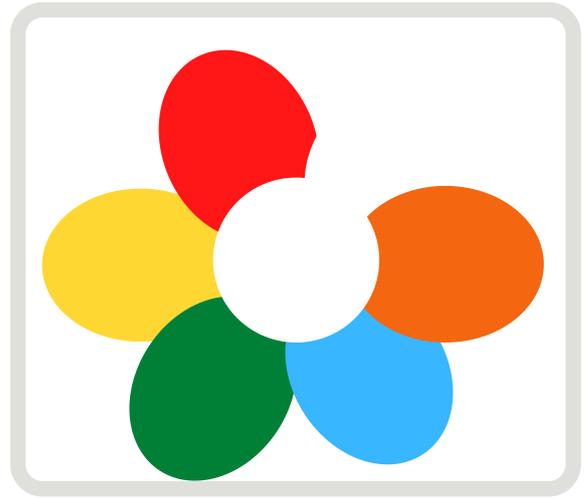

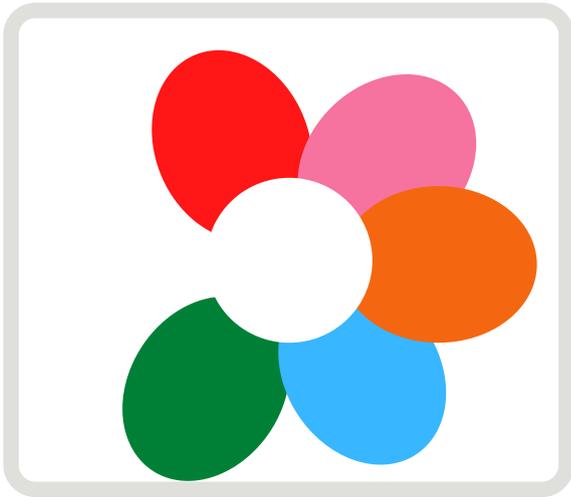

Ritaglia la carta grande, che posizionerai in mezzo al tavolo. Taglia e prepara le carte da gioco e fai due mazzetti. Ogni giocatore avrà un mazzo e dovrà mettere giù una carta. Il giocatore che individua e dice per primo il colore del petalo mancante, confrontando la sua carta col modello al centro del tavolo, vince entrambe le carte.

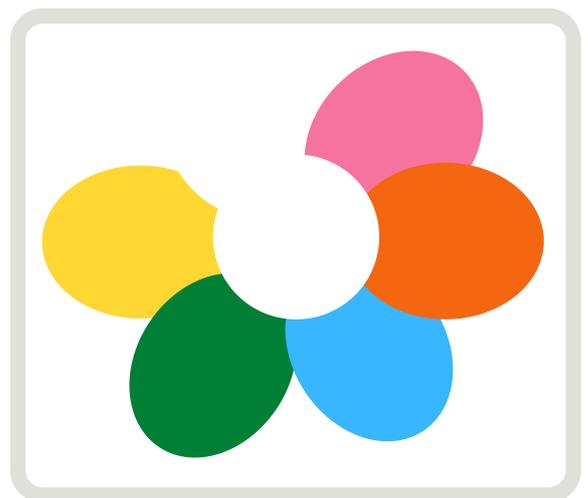

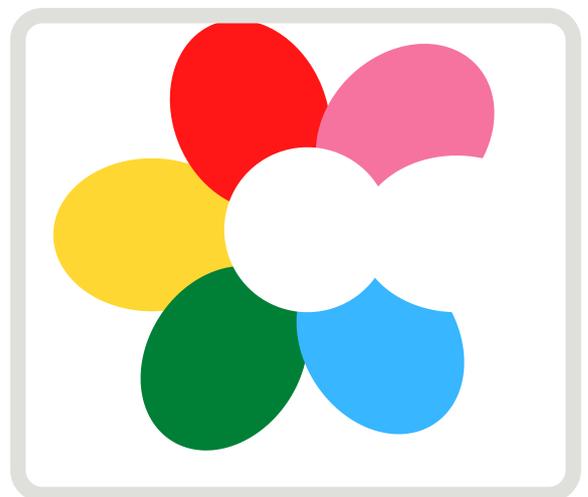

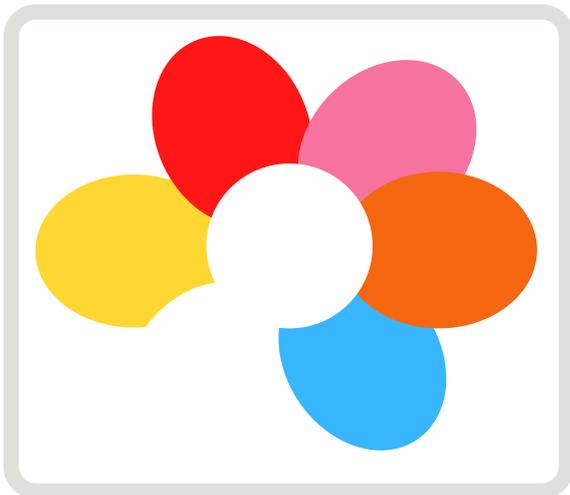

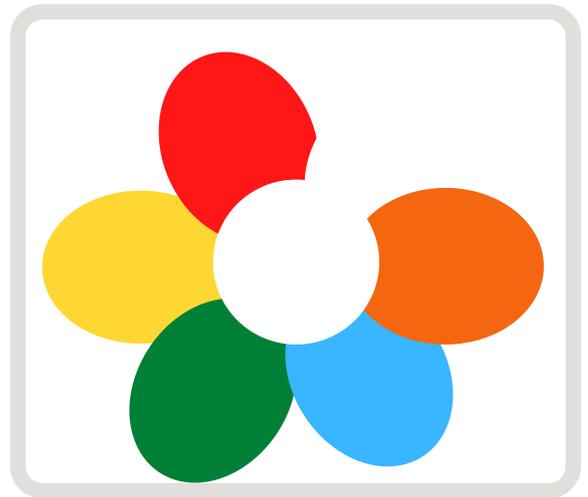

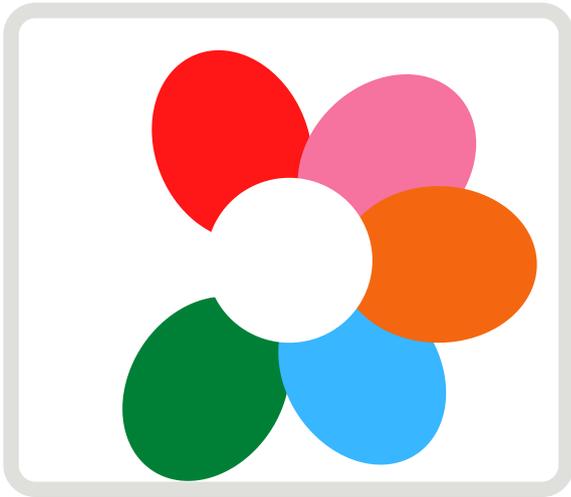

Questa attività è utile per lavorare sul riaggiornamento in memoria di lavoro, o UPDATING. Si può quindi utilizzare in un training di potenziamento delle funzioni esecutive.
